AYUNA VOGEL
IOS DEVELOPER

iOS Experience

LinkedIn · iOS Apprentice Engineer
Sunnyvale, CA · Apr 2017 to Oct 2017

Selected from 700+ applicants into the 6-month apprenticeship program, I worked on the LinkedIn flagship iOS app as part of the in-app Notifications team.

- Independently drive collaboration between design, product management, and engineering.
- Implement user-facing UI features to improve member experience for millions of LinkedIn's users.
- Work with LinkedIn development cycle tools for experimentation, ramping, tracking, and monitoring.
- Refactor existing code and ensure test coverage to improve the quality of the codebase.
- Proactively advocate for users, suggest product enhancements, and participate in user interviews.

iOSoho Meetup Lead Organizer / Women in iOS Meetup Founder
NYC · Oct 2016 to Mar 2017

- Led NYC's largest iOS community and founded the Women in iOS meetup to address diversity issues.
- Organized technical talks presented by expert speakers with ~ 200 developers attending each month.

Vimeo · iOS Developer Intern
NYC · Jun 2016 to Oct 2016

- Led and implemented localization of the Vimeo iOS app for six international markets.
- Collaborated with a cross-functional team of developers, product managers, designers, QA, and translators.
- Used JIRA, Git/GitHub, Jenkins to resolve tickets for bug fixes and user-facing application improvements.
- Worked in an Agile oriented environment to deliver assigned tasks in allocated time.

Neverlate iOS App · Co-founder, iOS Developer, Product Manager
NYC · Nov 2015 to Jun 2016

Put money at stake and pick a friend to be your accountability buddy. If you're late, you gotta pay!

- **Presented the app at the NY Tech Meetup in front of 800+ people in February 2016. (Video)**
- Managed a team of three developers, led concept development, and planned engineering schedules.
- Designed data model using MVC and integrated Venmo API for in-app payment transactions.
- Implemented business logic of the app and built Parse integration to store user details data.
